HD-25000

The Airocide® HD-25000 air purification system is a powerful unit for **barrel rooms, winery caves** and **warehouses.**

Airocide HD-25000 air purification units use patented

Photocatalytic Oxidation Technology (PCO)

developed for NASA, to completely trap and eliminate airborne **TCA, TBA, Brett, mold, odors, VOCs, viruses, bacteria, pathogens, allergens, ethylene gas, ozone, smoke, carbon monoxide, CO2** and other contaminants.

In addition, the Airocide HD-25000 unit provides extra air sanitization with

MERV-13 filtration

for bioparticulates.

Completely green and safe.

SPECIFICATIONS

Length: 26.25 in. (67 cm)
Width: 18.75 in. (48 cm)
Height: 8.75 in. (22 cm)
Weight: 32 lbs (14.5 kg)
Max Input AC: 120 or 220 VAC
Max Current: 2 Amps/1 Amp
Watts: 180w
Powercord Length: 9 ft.
Decibels: 62-67 db
Coverage area: 12,500
- 25,000 cubic feet (situation dependent)

MAINTENANCE

- Annual Lamp Change
- Filter change every 6 months (replacement kits available)

No emissions.

No ozone.

No chemicals.

Listed as an FDA Class II Medical Device.

Extremely energy-efficient and low operational cost, consuming approximately the energy of (2) 100-watt light bulbs.

Easy to install and operates 24/7 in most environments.
