The Scientific Air S400

99.9995% reductions in viable airborne pathogens.

Mold Mitigation

24/7 large air volume, whole-room viable pathogen UV-C disinfection and non-viable particulate reduction.

For the wine industry, the S400 mitigates the following airborne items:

- TCA
- TBA
- BRETT
- MOLD
- ODORS
- VOCS
- VIRUSES
- BACTERIA
- PATHOGENS
- ALLERGENS
- ETHYLENE GAS
- OZONE
- SMOKE
- CARBON MONOXIDE
- CO2
- AND MORE

- Rapid whole room clean
- Powerful 400 CFM air scrubbing
- Portable, durable, and efficient
- Safe and fast-acting in occupied spaces

Ideal areas at wineries for the fastest air purification:

- Barrel rooms
- Bottling areas
- Caves
- Conference rooms
- Casegoods storage areas
- Bottling supply storage areas

- Uniform 360-degree airflow distribution
- Laboratory verified pathogen elimination
- No airflow disruption
- Standard 110 outlet using as little energy as a ceiling fan
