TITAN 100

The Airocide® HD-Titan 100 air purification system is designed for **larger barrel rooms, winery caves** and **larger warehouses.**

Airocide HD-Titan 700 air purification units use patented **Photocatalytic Oxidation Technology (PCO)** developed for NASA, to completely trap and eliminate airborne **TCA, TBA, Brett, mold, odors, VOCs, viruses, bacteria, pathogens, allergens, ethylene gas, ozone, smoke, carbon monoxide, CO2** and other contaminants.

In addition, Airocide HD-Titan 100 provides extra air sanitization with **MERV-13 filtration** for bioparticulates.

Completely green and safe.

No emissions.

No ozone.

No chemicals.

Listed as an FDA Class II Medical Device.

Extremely energy-efficient and low operational cost, consuming less energy than (4) 100-watt light bulbs.

Easy to install and operates 24/7 in most environments.

SPECIFICATIONS

Length: 39 in. (99 cm)
Width: 22 in. (56 cm)
Height: 14 3/8 in. (36cm)
Weight: 70 lbs (31.75 kg)
Max Input AC: 120 or 220 VAC
Max Current: 4 Amps / 2 Amps
Watts: 390w / 195w
Powercord Length: 9 ft.
Decibels: 68-74 db
Coverage area: 20,000-40,000 cubic ft (situation dependent)
Wall/ceiling mount bracket and hang chains provided with the unit.

MAINTENANCE

- Annual Lamp Change
- Filter change every 6 months (replacement kits available)
